

REMARKS/ARGUMENTS

Applicants would like to thank the examiner for the careful consideration given the present application. Claims 1-3 and 5-19 are canceled in the present amendment while claim 4 has been previously canceled. New claims 20-24 have been added without introducing new matter. Applicants respectfully request reconsideration and allowance.

Applicant has added new claims 20-24. Support for the new claim can be found in Fig. 4 and paragraphs 0071-0073 of the U.S. publication No. US 2007/0037611. Applicants respectfully assert that the prior art of record neither anticipates nor renders the new claims obvious. The prior art of record fails to disclose that “the position of a cursor on the menu is moved based on the operation of the first button, the submenu is displayed when the second button is pushed, and an item of the submenu is changed based on the operation of the second button along the annular shape” as required in new independent claim 20. The prior art fails to show “the controlling unit changes an item on the submenu of the display based on a second sensed result” as required in new independent claim 24.

In light of the foregoing, it is respectfully submitted that the present application is in a condition for allowance and notice to that effect is hereby requested. If it is determined that the application is not in a condition for allowance, the Examiner is invited to initiate a telephone interview with the undersigned agent to expedite prosecution of the present application.

If there are any further fees resulting from this communication, please charge same to our
Deposit Account No. 16-0820, our Order No.: NGB-39858.

Respectfully submitted,

PEARNE & GORDON LLP
